(51D) Coupling methods and their applications - Red 1 (09:30 - 11:00)

-Conveners: Bruno Després

time	[id] title	presenter
09:30	[184] Transient, global-in-time, convergent iterative coupling of acoustic BEM and elastic FEM	NASSOR, Alice BONNET, Marc CHAILLAT, Stéphanie
10:00	[186] One-equation coupling of Curvilinear Virtual Element and Boundary Element methods for the wave equation in unbounded domains	FERRARI, Matteo DESIDERIO, Luca FALLETTA, Silvia SCUDERI, Letizia
10:30	[187] Discontinuous Galerkin-based domain decomposition method for boundary integral equations in electromagnetism	LABAT, Justine PUJOLS, Agnès COLLINO, Francis
