### Session 2.B: Pavement design (Chair: Sigurdur Erlingsson) - Room B (14:00 - 15:30)

time	[id] title	presenter
14:00	[36] Inputs for Local Calibration of AASHTOWare Pavement Mechanistic-Empirical Design Software for Rehabilitation	HOSSAIN, Mustaque
14:15	[43] MeDiNa pavement design methodology applied to Portuguese pavement structures	CALLAI, Sergio Copetti
14:30	[44] Assessment of the design life of high modulus asphalt concrete pavements and propositions of typical structures	GAJEWSKA, Beata
14:45	[46] Catalogue of Flexible Pavements Incorporating Reclaimed Asphalt Pavement (RAP) in Unbound Granular Layers of Low-Volume Roads	NEVES, José
15:00	[47] The effects of wireless inductive charging of electric vehicles on asphalt pavement materials	WILSON, Douglas
15:15	[135] A Mechanistic-Empirical Design of Bituminous Overlay on Flexible Road Pavement using Vertical Interface Deflection as Design Parameter	SAHIS, Manoj Kumar
