Session 3.A: Asphalt mixtures (Chair: João Crucho) - Room A (16:00 - 17:30)

time	[id] title	presenter
16:00	[53] Simulating the Impact of Bituminous Pavement Rutting Distress on Vehicle Braking Performance During Intense Precipitation	JIANG, Jiaqi
16:15	[54] Exploring the Influence of Aging Conditions on Fiber-Reinforced Porous Asphalt Mastic	WANG, Di
16:30	[55] Exploring Thermal Performance of PCM Fibre-Reinforced Asphalt Mixtures: A Design of Experiments Approach	PINHEIRO, Claver
16:45	[56] Comparative Analysis of Various Short-term and Long-term Laboratory Aging Methods of Asphalt Binder from the Rheological Perspective	YANG, Shih-Hsien
17:00	[57] Rheology and Performance Evaluation of Modified Asphalt Binders with Elastomer and Plastomer	LIAO, Min-Chih
17:15	[58] Correction Factors for Prismoidal Bituminous Mortar in Torsion	SUNNY, Greena Maria
