Session 6.C: Pavement monitoring (Chair: Hassan Baaj) - Room C (16:00 - 17:30)

| time | [id] title | presenter |
|-------|---|-----------------------------------|
| 16:00 | [119] Continuous Visual Survey of Road Pavement Using Convolutional Neural Networks and Smartphone Technology: A Data-Driven Approach | GONÇALVES, Haikel Baganem Busgaib |
| 16:15 | [120] Detection of Geogrids in Road Pavements Using Ground-Penetrating Radar (GPR): Experimental Study and Image Analysis. | NETO, Grigório |
| 16:30 | [121] Sensor-equipped infrastructure for integrated monitoring of asphalt pavements | CELAURO, Clara |
| 16:45 | [122] Airport pavement structural evaluation: the new ACR PCR method applied to existing runway pavements | FONTUL, Simona |
| 17:00 | [123] Field monitoring of low noise surface mixtures modified with recycled tire rubber | RICCARDI, Chiara |
