Session 7.A: Waste materials (Chair: Hugo Silva) - Room A (11:00 - 12:30)

time	[id] title	presenter
11:00	[126] Evaluating the Impact of Industrial Waste Incorporation on the Brittleness of Warm Mix Asphalt (WMA)	DEL-VALLE-CORTE, J.
11:15	[127] Effects of REOB on Asphalt Binder's Rheological Properties	GAO, Ya
11:30	[128] Effect of variability in sources of low-density polyethylene on the intermediate temperature fatigue performance of modified bitumen	GUPTA, Ankit
11:45	[129] Laboratory study on Asphalt Concrete with polypropylene plastic and non-selected construction and demolition waste	CALÓ, Manuel
12:00	[130] End of the line for recycled plastics on asphalt mixtures in Portugal? Research and road applications	MIRANDA, Henrique M. Borges
12:15	[131] Use of Recycled Low Density Polyethylene Plastic Waste in Stone Mastic Asphalt	LEE, Kelvin Yang Pin
