Session 7.B: Pavement reinforcement (Chair: Elisabete Freitas) - Room B (11:00 - 12:30)

time	[id] title	presenter
11:00	[132] Asphalt Overlay Enhancement with Fatigue High-Performing Multiaxial Geocomposite	GOLOS, Michał
11:15	[133] How Good Are Thin Asphalt Overlays?	SOLAIMANIAN, Mansour
11:30	[134] Investigating the Performances of Geosynthetic-Reinforced Pavement During Construction by Field Testing and Laboratory Testing	TIGHE, Susan L.
11:45	[136] Determining the performance of reinforcement systems using laboratory-scale accelerated traffic testing	RAAB, Christiane
12:00	[137] Evaluating the Reflective Crack Resistance of Geosynthetic-Reinforced Asphalt Concrete through Notched Beam Fatigue Testing	KIM, Youngsoo Richard
