FUSION2021

Wednesday, 3 November 2021

SS10 Advances in Machine Learning for Trustworthy Solutions - 2 - Zoom link: https://zoom.us/j/95148233557, Venue: Warriors Hall (15:20 - 17:00)

 -Conveners: Nidhal Bouaynaya

time	[id] title	presenter
15:20	[148] Video Anomaly Detection for Surveillance Based on Effective Frame Area	YANG, Yuxing
15:40	[149] Dynamic Explanation of Bayesian Networks with Abductive Bayes Factor Qualitative Propagation and Entropy-Based Qualitative Explanation	MATSUMOTO, Shou
16:00	[150] An embedded platform approach to privacy-centric person re-identification	PYM, Nicholas
16:20	[151] Improved Explainability through Uncertainty Estimation in Automatic Target Recognition of SARImages	BLOMERUS, Nicholas
16:40	[152] Morphing Attack Detection: A Fusion Approach	LORENZ, Siri
