

# EVMC 25

## Tuesday 13 May 2025

### Oral Presentations: S5: (Invasive) alien vertebrates (11:00 - 13:00)

-Conveners: Hubert Potočník; László Kövér

time	[id] title	presenter
11:00	[44] Invasive species management strategies in a One Health system	AUGUST, Katherine
11:20	[45] Using novel methods to prioritise grey squirrel control	HAM, Cally
11:40	[46] Balancing control methods for invasive tree squirrels with lethal and non-lethal approaches	BISI, Francesco
12:00	[47] Distribution, social perception and potential range expansion of invasive raccoons in Italy	MORI, Emiliano
12:20	[48] Presence, distribution and potential spreading of the invasive alien species, raccoon ( <i>Procyon lotor</i> ), in Tuscany, in relation to environmental characteristics at different spatial scales	MARTINI, Matilde
12:40	[49] Sacred or unholy? Assessing the impact of sacred ibis ( <i>Threskiornis aethiopicus</i> ) on heronries in northern Italy	LARROUX, Nicola

# Thursday 15 May 2025

## **Oral Presentations: S7: Taxonomy and genetics (11:00 - 13:40)**

-Conveners: Elena Bužan; Isa-Rita Russo

time	[id] title	presenter
11:00	[68] Vanishing beasts: the conservation of African rhinoceros	RUSSO, Isa-Ritta
11:20	[69] Conservation management of an endangered endemic freshwater fish, <i>Sandelia bainsii</i>	CARR, Alexander
11:40	[70] Last of its kind: Danubian lacustrine brown trout ( <i>Salmo trutta</i> )	RENKO, Gašper
12:00	[71] Status of rock partridge ( <i>Alectoris graeca</i> ) on the east coast of the Adriatic Sea	REZIĆ, Andrea
12:20	[72] Genomic signature of bottleneck and founder effect in Alpine ibex populations in Slovenia	BUŽAN, Elena
12:40	[73] Genomic insights into hybridization and genetic introgression in European wildcats from the northern Dinaric Mountains and Pannonian Basin	GERIČ, Urška
13:00	[74] Developing a new panel of genomic loci for mammalian taxonomic identification: MIPs (Multi-locus Intron Polymorphisms)	MARINANGELI, Lara
13:20	[75] Craniometric characters of European badger ( <i>Meles meles</i> ) from the west Pannonian mountain	KRAPINEC, Krešimir

# Friday 16 May 2025

## Oral Presentations: S4: Population monitoring and management (11:00 - 12:00)

-Conveners: Nikica Šprem

time	[id] title	presenter
11:00	[88] Conservation of capercaillie (Tetrao urogallus) in Poland: monitoring the effects of reintroduction and genetic rescue	SANTOREK, Anna
11:20	[89] Before and after: long term monitoring of birds and bats in a wind farm do not show significative impact	SCARAVELLI, Dino
11:40	[90] Nocturnal raptors for vole control: studying their populations	CUÉLLAR-BASTERRECHEA, Carlos
