**PP05: Hyperbolic Balance Laws in Fluid Mechanics: Complexity, Scales, Randomness: PP05.01 - Room 13 (14:00 - 16:00)**

-Conveners: Qian Huang; Christian Rohde

time	[id] title	presenter
14:00	[743] Anomalous dissipation in compressible and incompressible flow	ZINCHENKO, Georgy
14:30	[744] Multi-point probability density hierarchy for homogeneous isotropic turbulence	GÖRTZ, Simon
15:00	[745] Statistical conservation laws for the scalar and Navier-Stokes equations	HUANG, Qian
15:30	[746] Toward machine-learned implicit large-eddy simulations of compressible turbulence	BEZGIN, Deniz A.
