

BioEM 2025

Monday 23 June 2025

Tutorial 1: From Bioelectronics to 3D Cell Cultures: Enabling Techniques for Advanced Research - La Nef (09:00 - 10:30)

-Conveners: Francesca Apollonio; Lluís Mir

time	[id] title	presenter
09:00	[1] Electrochemical considerations in bioelectronics interfaces: opportunities and caveats of charge-transfer reactions	GLOWACK, Eric D.
09:30	[2] 3D Cell Cultures and Tissue Engineering in Bioelectromagnetism: Applications and Pathways to Integration	GULLER, Anna
10:00	[3] Dielectrophoresis of mesenchymal stem cells in differentiation: A tool for cell characterization and cell sorting.	VALLET, Leslie
