

BioEM 2025

Wednesday 25 June 2025

Oral Session 6: Experimental Studies on 5G: From Cells to Organisms II - Les Dortoirs (09:30 - 10:30)

-Conveners: Eleonore Fresnel; Sarah Loughran

time	[id] title	presenter
09:30	[309] Study of the effects of 5G modulated-700 mhz radiofrequency fields on the cellular stress response in astrocytes and sh-sy5y neuroblastoma cells.	PUGINIER, Emilie
09:45	[310] Effects of 5G (26 GHz) exposure on the electrical activity of healthy young adult subjects: a randomized controlled trial, preliminary results	MICHELANT, Lisa
10:00	[311] 5G-modulated, 26 GHz radio waves: Do they affect oxidative stress mechanisms in reconstructed human dermal tissue?	KOUGKOLOS, Georgios
10:15	[312] Effects of fifth-generation (5G) environmental radiofrequency signals on oxidative stress in skin cells: a BRET study.	H AidAR, Jana
