

# 2025 International Conference on Biofabrication

## Tuesday 16 September 2025

### S10 Biofabrication of Engineered Living Materials - Kruczkowski (17:30 - 19:00)

-Conveners: Michael Gelinsky; Riccardo Levato

time	[id] title	presenter
17:30	[25] Living Therapeutic Materials for Zero-waste Therapeutics	DEL CAMPO, Aránzazu
17:50	[488] Photosynthetic living materials for dual-carbon sequestration	CUI, Yifan
18:10	[293] SporoPrinting - 3D Bioprinting of Functionalized Bacillus subtilis Endospores	SCHUBERT, Arthur
18:20	[470] Engineering, characterization, and optimization of fiber meshes with chemically and temporally distinct compartments for ELM fabrication	KOENIG, Meike
18:30	[492] Fabrication of Symbiotic Engineered Living Materials for Bone–Fat Interface Modelling	TRUBERT-PANELI, Alexandre
18:40	[497] Investigation of (3D) bioprinting processes for high-scale bioproduction and customized additive manufacturing of engineered living materials	BLAESER, Andreas
