

2025 International Conference on Biofabrication

Tuesday 16 September 2025

S17 Cellular Agriculture: a new frontier for biofabrication - Kisielewski (15:30 - 17:00)

-Conveners: Gabor Forgacs; Daan Luining

time	[id] title	presenter
15:30	[9] Improved product quality of cultivated meat using forward programming for differentiation	LUINING, Daan
15:50	[4] Advancing the Biofabrication of Cultivated Meat - Strategies for Scalable and Textured Cell-Based Foods	KLUGER, Petra
16:10	[498] Beyond the Blueprint of Nature: Innovera's Path from Biomimicry to Pragmatic Biofabricated Solution	VARADARAJU, Hemanthram
16:30	[250] Thick cultured meat fabricated using hollow fiber bioreactors with uniform fiber distribution	NIE, Minghao
16:40	[388] A recombinant extracellular matrix-like protein supports myogenesis in 3D bioprinted cultivated meat	KILIAN, David
16:50	[344] Biofabrication of Microarchitected Cell-Based Meat Using Chaotic Bioprinting Strategies	ALVAREZ, Mario Moisés
